¹ While the SkyTel entities have mostly completed research, screening and selection of replacement legal counsel for this hearing (and, as required, for other cases including before the FCC), that will not be completed by March 12, 2012.

Until that is completed and new counsel appears in this proceeding, SkyTel only seeks documents they are entitled to receive, including, without limitation, all documents produced by Maritel in response to the joint SkyTel-Enforcement Bureau discovery under Order of the Judge, Mr. Sippel, addressed here. SkyTel has received no documents to this date responsive to this discovery, but has been informed by Enforcement Bureau communications that Maritime has produced far over twenty thousand pages of documents (very late, disorganized and of questionable relevance, but still produced). These were produced on one inexpensive standard "CD" *at no cost to the Bureau*. Neither Maritime nor the Bureau would provide to SkyTel, upon SkyTel's respective requests, a copy of this CD "as is" or a copy with any of the documents the original contains. FCC hearing rules do not accord the Bureau superior rights to SkyTel in this proceeding, nor does the IIDO FCC 11-64.

In the understanding of the undersigned, Maritime has not designated under the Protective Order any of these documents as documents that may be withheld from SkyTel as represented at this time by the undersigned, without current legal counsel in this proceeding. Further, Maritime has not obtained relief from the Judge's Order to fully and timely (at a time long past) comply with this document production obligation. This lack of compliance is severely prejudicial.
